

K Sruti Rani

SKILLS

HTML5, CSS, JavaScript, JQuery, ReactJs, Java, C, Bootstrap, MySQL, SpringBoot

PROJECT UNDERTAKEN

• Online Tutorial System:

Developed a website resembling an LMS, specifically designed to support slow learners, with the goal of large-scale commercialization. Utilizing ReactJs for dynamic frontend design, SpringBoot for backend support, and MySQL for database management.

• Weather Application:

Designed and developed a weather application using HTML, CSS, and JavaScript that provides real-time updates and forecasts, displaying current conditions like temperature, humidity.

• Hostel Management System:

Developed a java-based hostel management system with object-oriented design for efficient management of hostel details, including room information and maintenance task tracking.

• Automated Floor Cleaning Robot:

Effortlessly mopping our advanced floor cleaning robot uses smart Arduino and ultrasonic sensor to navigate and avoid obstacles, ensuring a spotless and convenient cleaning experience.

DOMAIN EXPERTISE

Software Technology: Web Service using Java, Advanced Java Programming, Web Programming using ReactJs, Product Development
